We have created so many comics and GIFs now on so many of our video topics, and we think they are so powerful in the classroom. ¢ÂÂÂOur videos and resources are designed toÂ Âspecifically focus on and support biology TEKS (Texas standards), but there is often standard overlap in many locations. Eukaryotic Cells Recap- Amoeba Sisters PDFFile Size: 370 kbFile Type: pdfDownload File We have many cell comics, but this is one of our favorites on this topic. Just think about the power of projecting this on a screen and the questions that could be asked about how this relates to the topic being studied. If you want your students to write on PDFs, please visit here.3.Â ÂThe first PDF in the folder reminds about terms of use AND addresses some of the main questions we get regarding our free handouts.4. You can still scroll down on this page to see each alphabetized topic where we haveÂ ÂmoreÂ Âitems such as our comics, GIFs, and our TpT resources for each topic on this page. Below is our old handout as well. Video companions may resemble questions similar to a recap handout (such as the codon chart video companion) or utilize a script similiar to the annotated video script template (such as the review video companion).Suggested Use for Video Companions:We highly suggest giving students access to these during the video, but it should be emphasized that they are not to be completed while the video is playing unless using the pause feature [the video will suggest when to pause] is used. To find it, look under the topic on this page "Codon Charts."Â Â :) NOTE: We don't always update old handouts when we update a video, but we decided to update this handout!
